

## Press Release

Kehl, 8<sup>th</sup> of June 2021

### The Bürstner luxury camper van Eliseo is now available in five versions

Bürstner has developed its successful model range Eliseo further. From September 2021 onwards, it will offer a total of five layouts that promise even more living comfort. This most recent upgrade focuses on storage space and the multifunctional Vario washroom.

**Kehl.** Eliseo – this Bürstner camper van stands for a sophisticated ambience and comfort. Two of the current layouts will be developed further and replaced with other versions; the Eliseo C 644 is a completely new addition.

"Plenty of storage space as well as a generously proportioned and clever washroom solution have now become important criteria in the luxury camper van segment that influence the decision to purchase in this vehicle class," says Carolin Gebhardt, product manager for Bürstner camper vans. "That is why we have designed the Eliseo C 602, C 642 and C 644, with layouts that offer an even more luxurious level of living comfort."

The new Eliseo C 644 features a curved lounge and an electric drop-down bed at the rear, above the suite. When it is dropped down to the height of the rear extension, the bed area extends to exceptionally generous proportions. The lounge suite also converts into a bed. Four people can then comfortably sleep in this kind of "bunk bed" set-up. The washroom is located in the front area; the table is a folding table and can therefore also be used outside. "Flexible habitation use" was the aim of this new layout, which offers additional storage space in the rear (for example for a bicycle). It is equipped with four seats with seat belts and sleeps two to four people – without the use of a pop-top roof.

The new layouts Eliseo C 602 and C 642 replace the current layouts C 600 and C 641 and impress with a new Vario washroom - a multifunctional washroom that turns into a separate shower cabin without a curtain with the aid of a movable shower screen. A clean solution that is also easier to clean. The Vario washroom is also equipped with a movable wash basin that can be moved out of the way

completely together with the shower screen.

The new Eliseo C 602 is a further development of the current C 600 layout, with the Vario washroom added as a comfortable solution. It offers four seats with seat belts, two to five sleeping berths (with or without the optionally available pop-top roof and convertible lounge suite) and is a compact 5.99 metres long. Additional bonus: the 135l compressor refrigerator.

The new Eliseo C 642 replaces the current C 641 and is also equipped with the new Vario washroom. The layout offers four seats with seat belts, and again two to five sleeping berths and a low single bed that is easier to get into and easily converts into a large sleeping area. It also comes with a diesel-, rather than a gas-fuelled heating system, and a large 135l compressor refrigerator.

From the autumn onwards, it will also be possible to combine a Sun-Roof with a pop-top roof across the entire Eliseo model range (except the C 644).

"The now five layouts of the Eliseo range appeal to discerning holiday makers who want to travel in a compact, comfortable and cosy vehicle," says Bürstner's head of product management Markus Pangerl. "Our Eliseo is a true 'wohnfüh!' vehicle with a modern interior design and many elements for additional comfort such as an adjustable bench seat, cosy fabrics or indirect lighting. Basically, everything discerning caravanning fans are looking for. It is clearly in a higher class than our Campeo."

From September onwards, the three new layouts will be available from German specialist retailers.
